Sir:

RESPONSE

We have carefully considered the Office Action dated May 4, 2005, in which claims 10-18 are rejected under section 112 and claims 1-18 are rejected as obvious over a combination of the Trulson and Ginestet references or the Brown and Ginestet references.

We discuss first the rejections under section 112. The Examiner contends that the specification "does not reasonably provide enablement for computing a set of correction factors and applying the set of correction factor to quantitation data obtained from the
